ABOUT ME

CL

"I studied at ACCD in 2022 and firmly believe that effort can overcome any obstacle. Passion is a guiding force for me; when you learn with love, motivation knows no bounds. I continually seek to elevate my technical skills, public speaking abilities, and mindset. I create refined, emotionally resonant design that blends function with visual clarity."

"Design is My Language. Emotion is My Accent."

Design Language

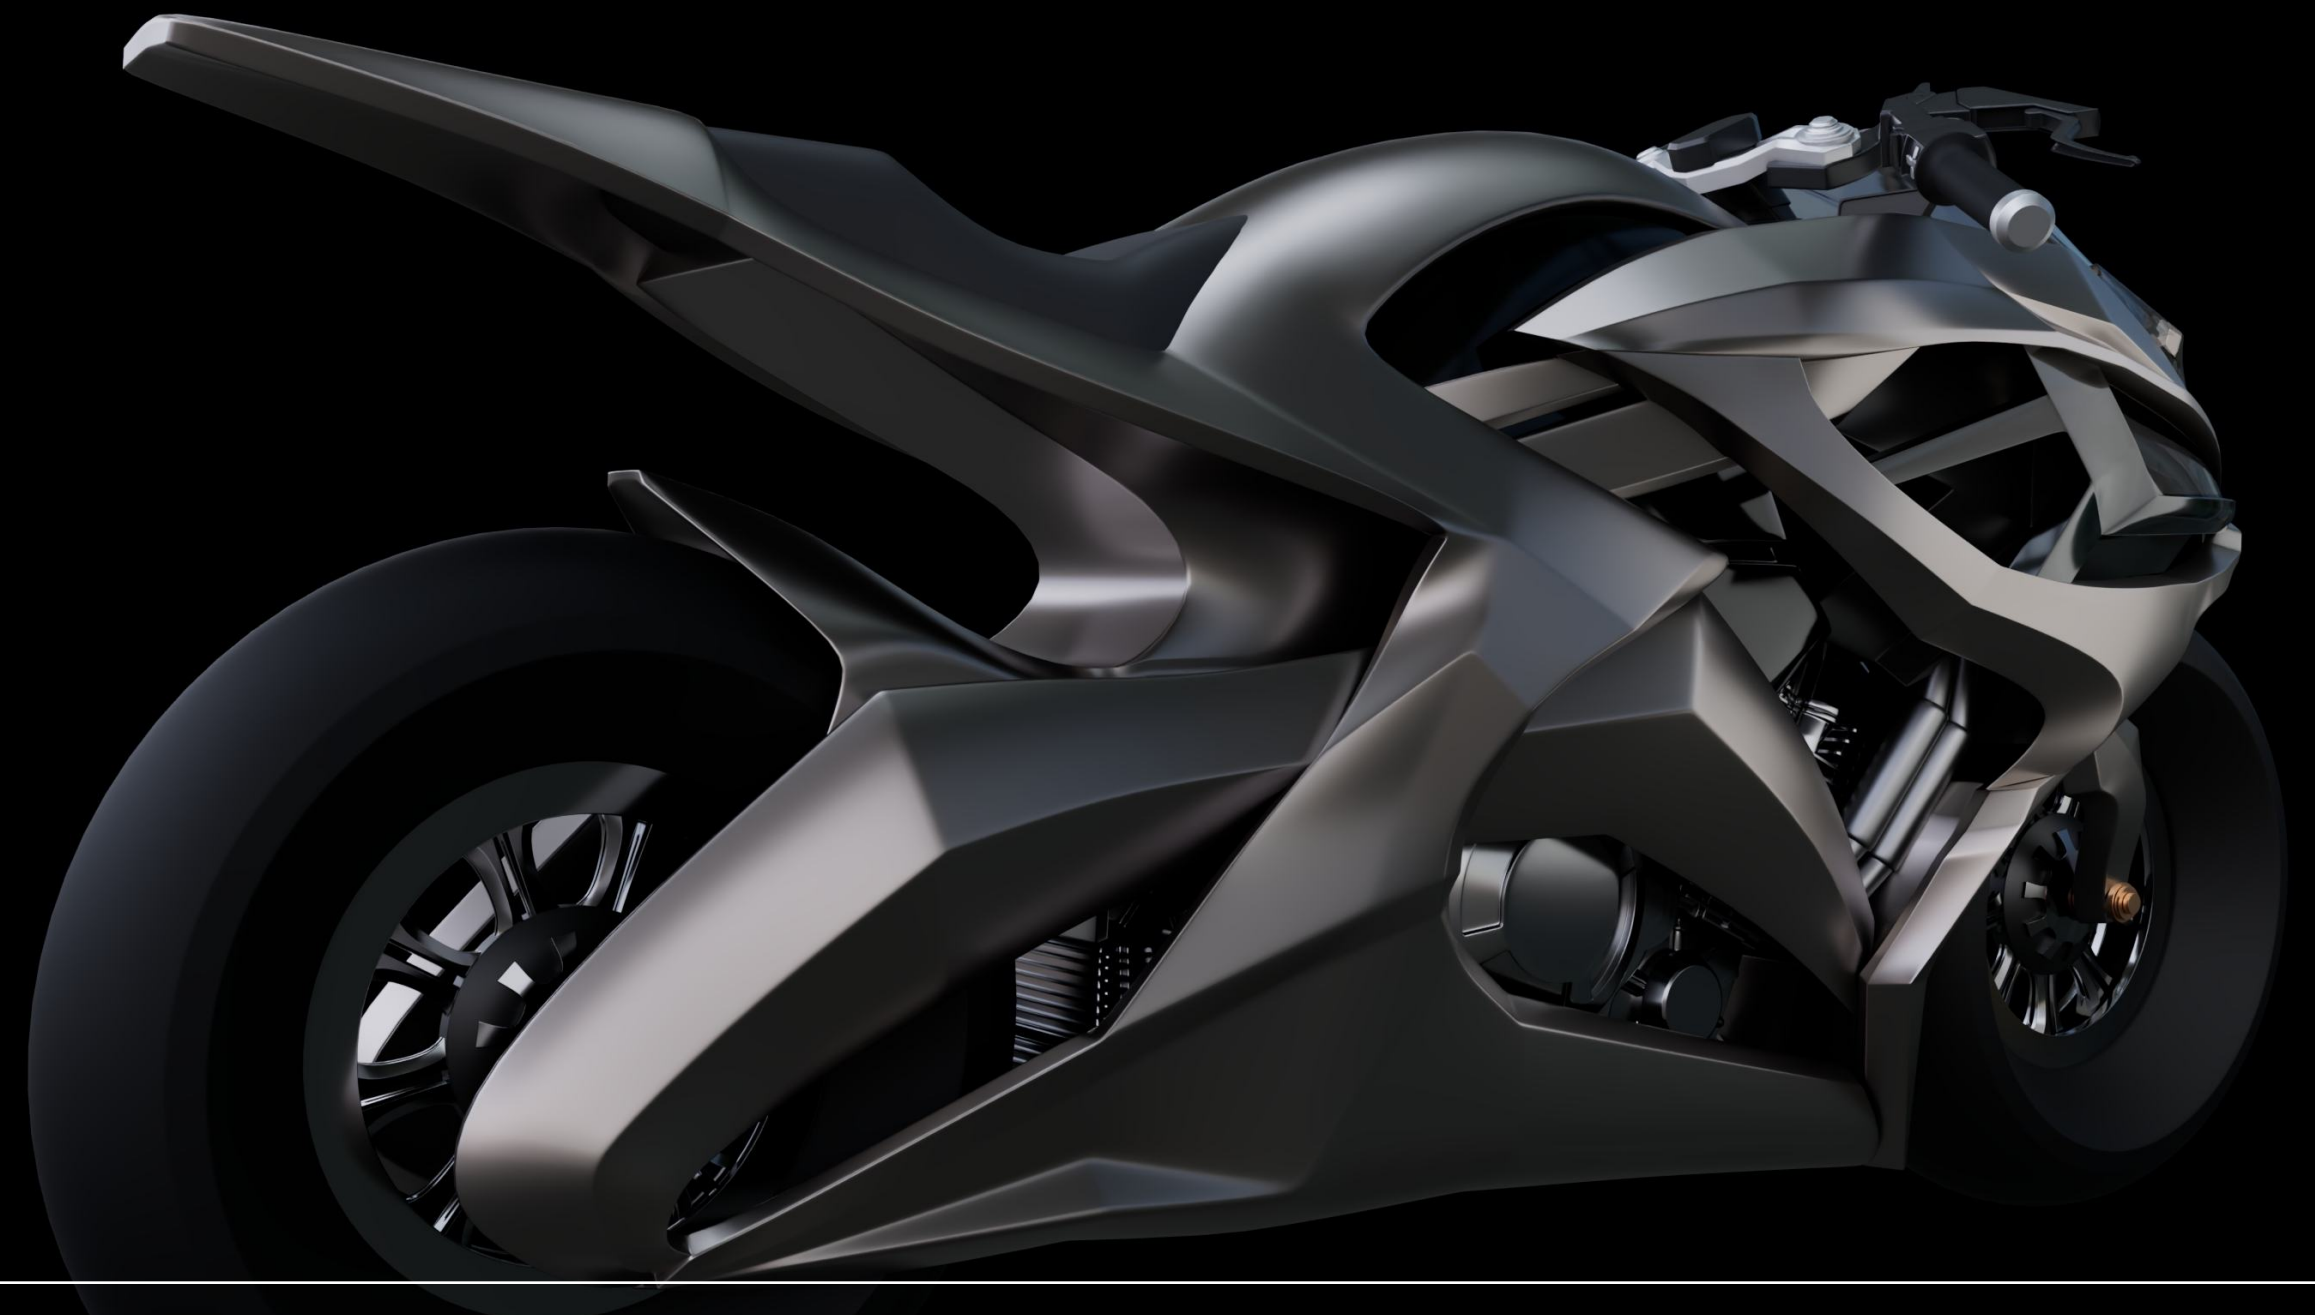

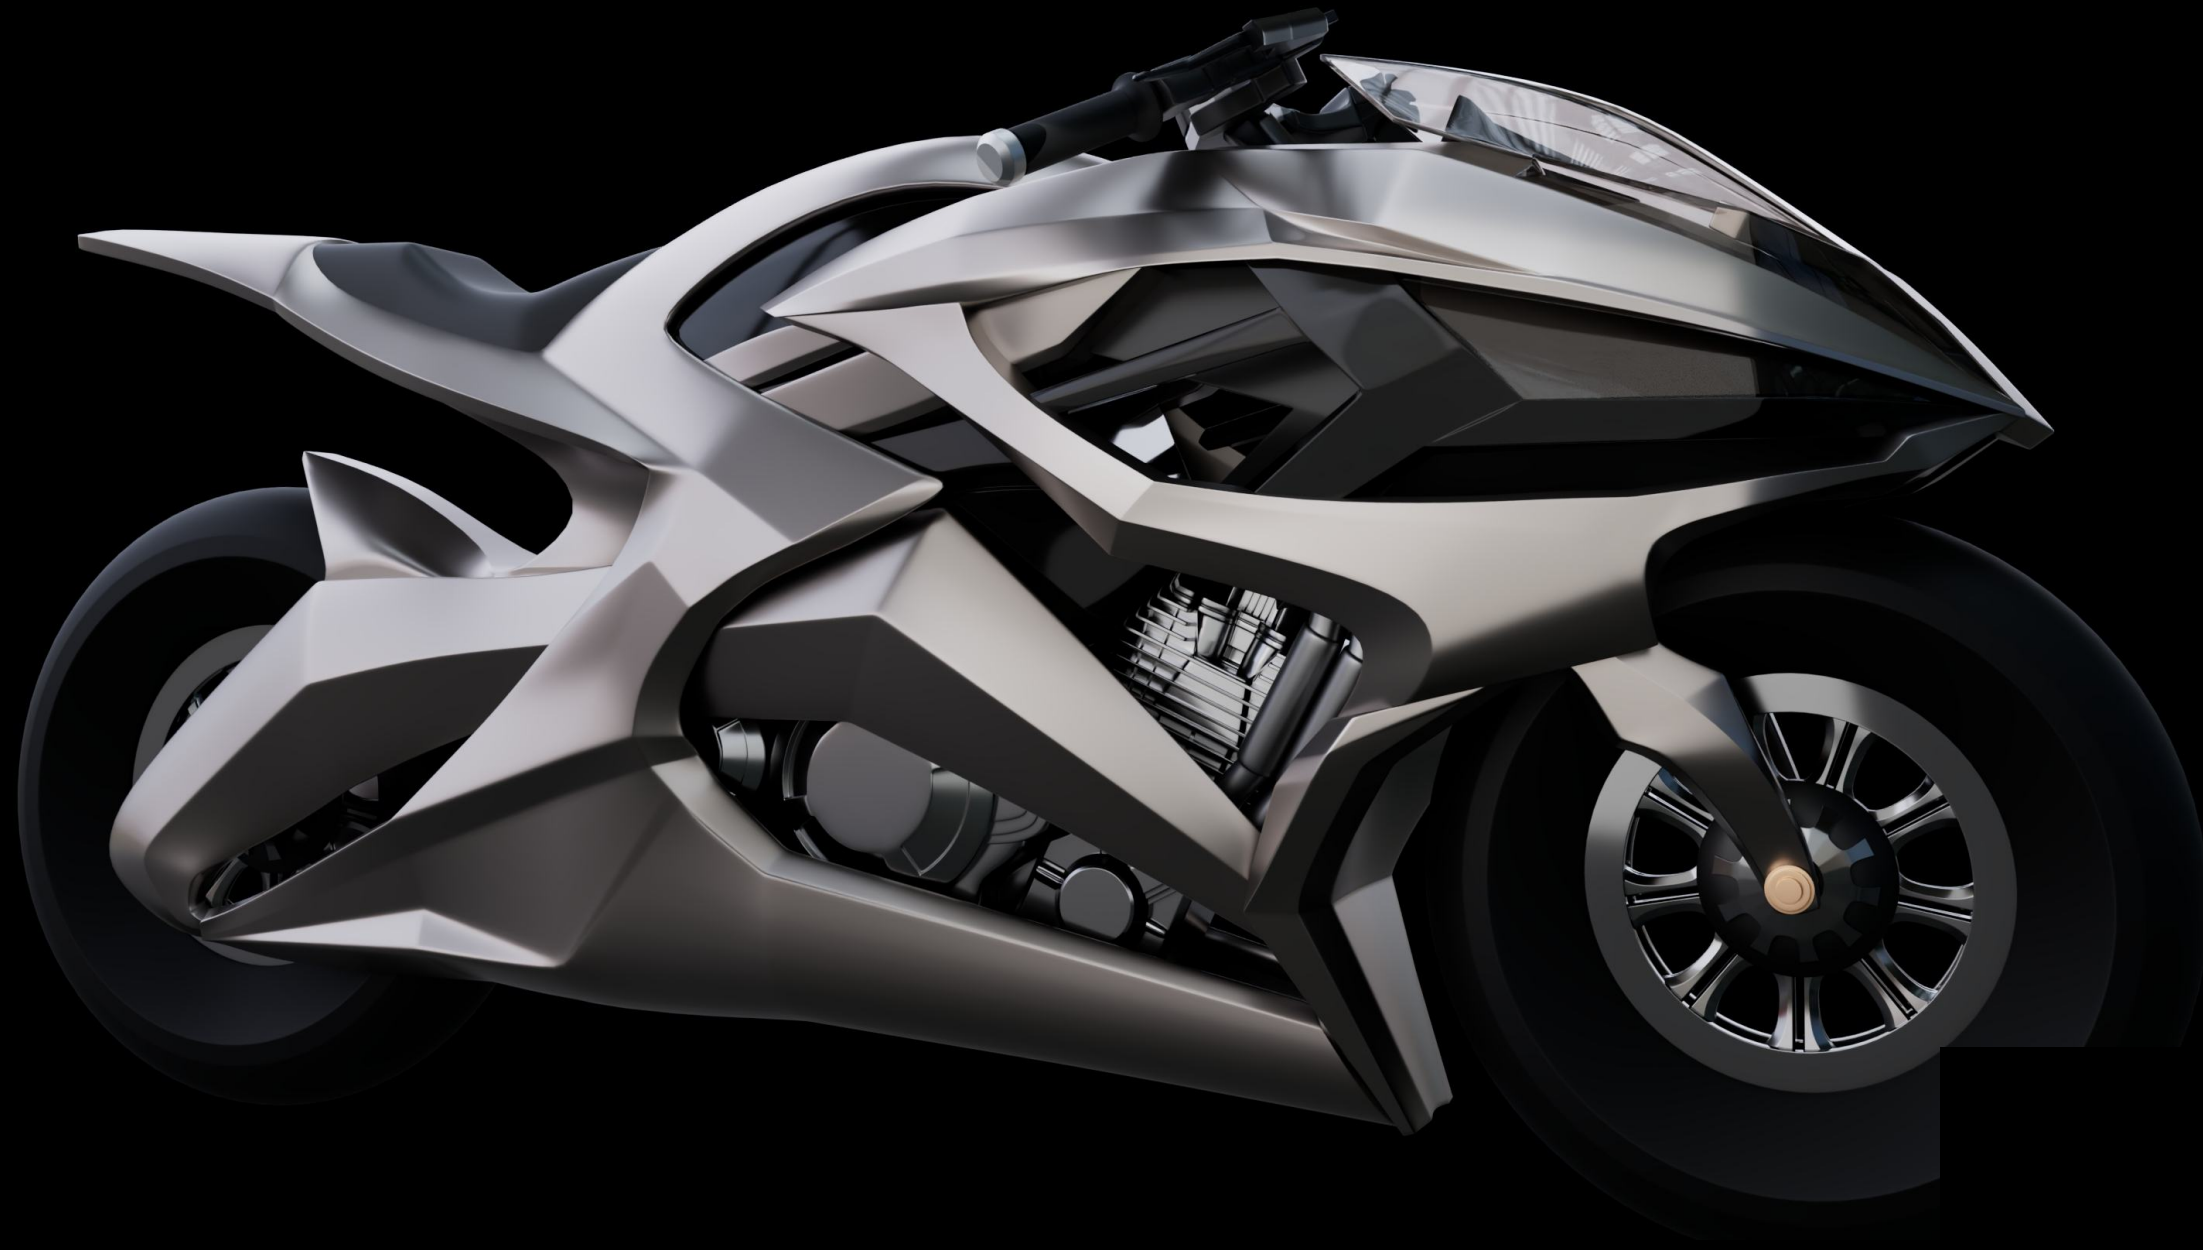

Stealth Fighter Geometry Angular surfaces and airflow-driven lines create a dynamic silhouette, even in stillness. Sheathed Katana Concept Controlled restraint on the outside, uncompromising performance beneath.

Cyberpunk Minimalism Matte-black finish, carbon-fiber textures, and an unapologetic absence of chrome—built for anonymity and dominance. Signature Detail White rims trace the night like moonlight on asphalt, a quiet but deliberate signature.

Lee Broom's design ethos:

A dial that merges classical aesthetics with modern design, made from luxurious and unusual materials such as marble textures, polished brass, or crystal clear glass.

The image shows a close-up of a wooden sauna door. On the left side, there is a large, semi-circular window with a pattern of concentric, slightly wavy lines. The rest of the door is made of vertical wooden slats. A dark, rectangular handle is mounted on the right side of the door. The text "TRUDON SAUNA ROOM" is centered on the door in a white, serif font.
